

CustoBlend®

Specialty Blends

CustoBlend[®]

CustoBlend[®] specialty blends are custom manufactured blends. CustoBlend[®] specialty blends to allow formulators to incorporate more active ingredients without the complexity of manufacturing and inventory of multiple smaller use items. Most CustoBlend[®] specialty blends allow the formulator to cold blend ingredients and thus speeding up manufacturing times and lower costs to market of final production.

We have made CustoBlend[®] specialty blends of many different types based on customer requests. These include surfactants, oils, extracts and preservatives. Most items are available in 40 # or 400 # minimums.

The following is a list of some of the stock CustoBlend[®] specialty blends we have available, but many other items are available on request.

Contact us to discuss your CustoBlend[®] needs.
